## Rotary Tablet Press Machine

This ZP17 Rotary Tablet Press Machine is designed for small to medium pharmaceutical companies, health supplement makers, and research institutions. It is easy to operate, performs reliably, and provides great value for the price. The machine compresses various granular raw materials into round tablets and can also make tablets in different shapes, making it perfect for small-batch production.

It uses a rotary multi-punch tablet press and intelligent pressure control system to ensure consistent tablet weight, hardness, and appearance. It meets the needs of process development and small to medium-scale production. This is an economical and practical mid-range tablet press solution.

Model		ZP17
Number of Stations		17
Max Main Pressure (KN)		50
Max Pre-pressure(KN)		10
Max Tablet Diameter(mm)	Round tablet	20
	irregular tablet	22
Max Filing Depth(mm)		15
Max Tablet Thickness (mm)		6
Max Turret Speed(r/min)		40
Max Production Capacity(pcs/h)		40800
Motor Powwer(kw)		2.2
Overall Size(mm)		950*770*1740
Machine Weight(kg)		900
