FT-8 »

Automatic Tablet & Capsules Counter

This automatic counting machine uses a high-response programmable controller and advanced photoelectric sensing technology from **Europe and the United States.** It has an attractive design and is easy to maintain.Widely used in the production of **vitamins, health supplements, food, pesticides, and chemical industries**, it features ntelligent electronic detection, supports multi-channel independent counting, and works well with **high-speed production lines.** The machine meets **GMP and FDA cleanliness standards.**

Simple automatic production parameter setting system covers a wide range of pharmaceuticals.

Rotatable color touchscreen with HMI interface for easy operation.

Photoelectric sensor dust adiustment and self-diagnosis function ensure counting accuracy, features lavered tablet eiection finction.

Secondary and tertiary DC variable frequency vibration control system provides stable and fast counting drive.

Model	FT-8
Capacity(Tablets/Min)	4000
Power(kw)	0.8-0.9
Overall Size(mm)	1325*1610*1770
Net Weight (Kg)	760/850
