Mixing Machine Series

- Adopts single S-paddle for repeated material rotation and uniform mixing.
- Pneumatic control, set mixing time for auto stop and electric discharge, improving mix quality.
- Widely used for powder/paste mixing in pharmaceutical and food industries.
- Stainless steel made, hygienic, corrosion-resistant, easy to clean, meets GMP standards.
- Horizontal tank structure, convenient loading/unloading, stable and efficient mixing.

Model	CH-50	CH-100	CH-150	CH-200	CH-300	CH-400	CH-500	CH-600
